ABOUT SAVVY CYBER KIDS

Savvy Cyber Kids is a nonprofit organization whose mission is to enable youth, families and school communities to be empowered by technology.

Seeing a void in the conversation about online safety and cyber ethics for young children, Ben Halpert launched Savvy Cyber Kids in 2007. What began with the Savvy Cyber Kids at Home book series, for kids ages 3-7, evolved into a platform of educational resources and workshops for parents, educators, school administrators and students from preschool through high school (ages 3-18).

PROGRAMMING

BRING SAVVY CYBER KIDS TO YOUR SCHOOL: CYBER SAFETY & ETHICS PROGRAMMING

The Savvy Cyber Kids Cyber Ethics Programs give children the “modern street smarts” that are required for digital safety—engaging with them on what they are experiencing and empowering them to be safe by making appropriate decisions in the online world. The Savvy Cyber Kids Cyber Cyber Safety and Cyber Ethics Programs offer schools and communities a multi-age platform of customizable and interactive engagements that speak directly to younger children, pre-teens, teenagers, parents and educators.

CYBER SAFETY & ETHICS SCHOOL AND COMMUNITY PROGRAMS:

- **Pre-school through 1st Grade:**
Visiting Author and Introduction to Cyber Safety
- **2nd through 4th Grade:**
Technology, Privacy & You
- **5th through 8th Grade:**
Think Before You Connect
- **9th through 12th Grade:**
Real vs. Virtual You
- **Parent:** Digital Native or Digital Naïve
- **Educator:** Teaching with Technology

SAVVY CYBER KIDS BOOKS

EDUCATE YOUNG DIGITAL CITIZENS

The moment you hand your child a device to keep them entertained, is the moment you should start reading the award-winning children’s picture book series, Savvy Cyber Kids at Home (available on Amazon.com).

The Savvy Cyber Kids at Home: The Family Gets a Computer teaches the concepts of what computing devices are, what you can do with them and how to deal with online strangers and privacy.

The Savvy Cyber Kids at Home: The Defeat of the Cyber Bully teaches children how to appropriately respond to a cyber bully, a bully at school, and a bully on the playground.

The Savvy Cyber Kids at Home: Adventures Beyond the Screen helps kids discover meaningful ways to have fun without technology.

“Ben Halpert is a must-have speaker for any school interested in promoting the positive aspects of technology and cyber ethics. His practical advice will help even the most seasoned user, and it certainly helps those of us who are parents.”

— Teresa Tamel, Middle School Principal, Cornerstone Christian Academy

APPEARANCES

Technology is commonplace in every aspect of children’s lives. For digital natives, growing up in the digital age, trouble lurks in the virtual playground. Savvy Cyber Kids is available to speak about cyber safety and cyber ethics, when technology is used for good or for bad—and then provide resources for parents and teachers to educate children as they grow up in a world surrounded by technology.
